

ST. PETERSBURG COLLEGE

2025 END OF THE YEAR REPORT

EXECUTIVE DIRECTOR'S MESSAGE

The meaningful work we accomplished throughout 2025 at the Institute for Strategic Policy Solutions (ISPS) would not have been possible without the generous support of our sponsors, partners, volunteers, and donors. This year's report highlights our efforts to advance student success, foster economic vitality, and promote community engagement—all from a nonpartisan perspective.

Notably, our dedicated student fellows rose to the challenge of organizing a statewide conference—created by students, for students. This inaugural event focused on cybersecurity and was designed for faculty leads and students across the Florida College System.

We invite you to explore this report and reflect on the initiatives we delivered throughout Florida. As we close the chapter on 2025, we look forward to building on this momentum for a productive and engaging 2026.

Together, with your continued support, we remain committed to our mission: to enhance, educate, and engage with the Florida College System and our communities within the State of Florida and beyond.

With Gratitude,
Kimberly G. Jackson, Esq. | ISPS Executive Director

ABOUT THE INSTITUTE

The Institute for Strategic Policy Solutions (ISPS) at St. Petersburg College (SPC) aims to ENHANCE understanding, EDUCATE students and citizens, and ENGAGE conversation in support of effective, solution-oriented public policy. Housed on the SPC Seminole Campus, ISPS provides a forum to explore local, state, national and international issues.

The vision for the Institute originated in the mid-2000s when in recognition of the late Congressman C.W. Bill Young's leadership in Washington and Tallahassee as well as his commitment to educational and economic development initiatives, the Florida Legislature designated funds to establish the Institute.

ISPS seeks to educate the community in the following ways:

Promote student engagement

Enhance civic and community involvement

Serve as a center for public discourse

Identify economic initiatives

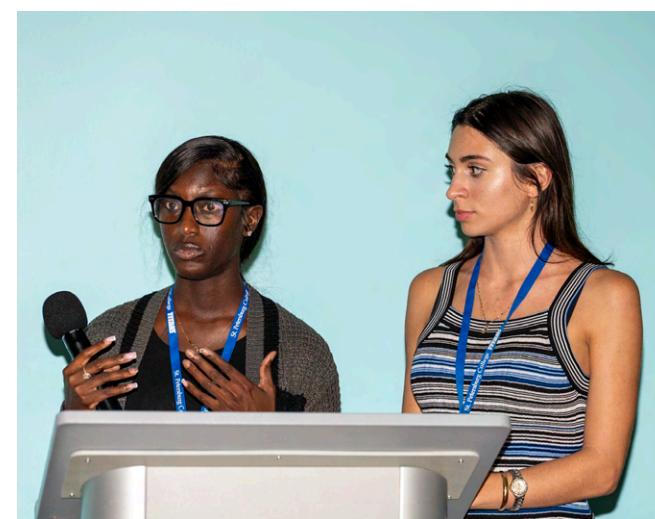

CONGRESSMAN C.W. BILL YOUNG

The vision for the Institute originated in the mid-2000s with the late Congressman C. W. Bill Young and then St. Petersburg College President Carl M. Kuttler Jr. In recognition of Congressman Young's leadership in Washington and Tallahassee as well as his commitment to educational and economic development initiatives, the Florida Legislature in 2007 and 2008 appropriated a one-time \$7.5 million endowment to establish the government institute.

Based at SPC, it is designated as an institute serving the entire Florida College System. It was envisioned as a way to offer a broad array of research, training, educational, and policy analysis to support activities at the local, state, regional, and national levels of government. The Institution came to fruition in 2010 under the former College President, Dr. Bill Law.

Watch our short documentary highlighting Congressman C.W. Bill Young and the history of ISPS by visiting the web-link below:

ISPS STAFF AND FELLOWS

The Institute for Strategic Policy Solutions (ISPS) fellows initiative is an internship opportunity available to students within the Florida College System. Our purpose of having student fellows is to add value to their academic and professional careers while supporting ISPS's mission of fostering growth through student and community engagement.

FELLOWS EXPERIENCE

From August 2024 to November 2025, the ISPS Fellows made lasting contributions that strengthened the Institute's mission of civic engagement and public policy education across Florida. This dynamic cohort advanced institutional capacity through research, teamwork, policy simulations, and event leadership, while also expanding community partnerships in areas such as veterans' affairs, environmental sustainability, and cybersecurity.

Their dedication and commitment to creating engaging programs, workshops and opportunities for educational growth and discussion open to the public not only elevated ISPS's visibility and programming, but also fostered their own professional growth as organizers, communicators, and leaders.

Collectively, the fellows demonstrated how a student-led innovation can drive meaningful civic impact, leaving a legacy of collaboration and capacity-building that will continue to shape and support the Institute's mission of fostering local and statewide engagement.

INAUGURAL STUDENT-LED CONFERENCE

As part of our mission to foster collaboration and elevate the educational experience for Florida College System students, ISPS hosted its inaugural cybersecurity conference initiative - hosted by students, for students.

The Inaugural Student-Led Conference offers a unique opportunity for students across the state to gain valuable leadership experience, connect with subject-matter experts, and expand their professional networks. Aside from being a great out-of-classroom experience, cybersecurity career-focused students enhance their understanding of civic literacy by crafting innovative public-policy proposals to address a hypothetical cyberattack scenario.

Student leaders accompanied by their respective college's faculty lead, attended speaker sessions addressing Public Safety, Ethics, Workforce, and Artificial Intelligences' role in the sphere of cybersecurity. It's our vision that this conference initiative can serve as a bridge to connect cybersecurity professionals and public policy leaders to streamline communication and understanding for building innovative policy solutions.

Participating College Partners

GRAND DEBATE

GRAND DEBATE

Americans hear a great deal of talk about crucial policy issues that affect their lives. To expand and enhance that discussion, the Institute for Strategic Policy Solutions (ISPS) proudly hosts a yearly, competitive forum for Florida college students to debate these issues – the Grand Debate.

Crafted to prepare today's students to become tomorrow's future leaders, this statewide initiative brings together students and faculty from across Florida's "Great 28" state colleges to engage in friendly rivalry to debate relevant issues of the day. Beyond sharpening public speaking and debate skills, participants gain valuable networking opportunities with college-wide peers, government officials and business leaders from across the state.

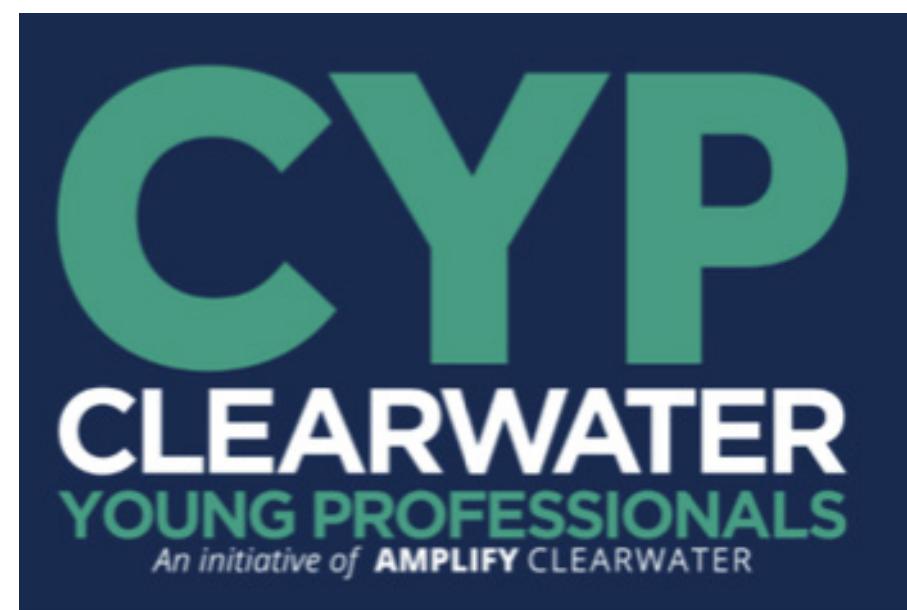

Building on this mission, the 2025, Fourth Annual Grand Debate gathered finalists from St. Petersburg College, Daytona State College, Hillsborough College, Eastern Florida State College and Palm Beach State College on Nov. 6 to tackle a timely question: Should the government regulate social media content moderation policies?

To reach the final competition, participating colleges first hold preliminary rounds on campus. From there, finalists dive into research on the predetermined topic approved by ISPS and its college partners. Remaining unbiased throughout the process, students are required to research both sides of the argument and receive their stance the morning before the competition. The views expressed in the Grand Debate do not represent those of participants or ISPS.

September Report for Fall 2025 ~
INSTITUTE FOR STRATEGIC POLICY SOLUTIONS

Programs

September 19th, 2025 @ State College of Florida - Lakewood Ranch Campus (1:00 pm to 2:00 pm)

The Nursing Workforce Dilemma in Florida – Part II: From Classroom to Career

In partnership with State College of Florida, join the Institute for Strategic Policy Solutions for an insightful panel discussion on the future of nursing in Florida. This timely program will bring together leading voices in nursing education, healthcare administration, and workforce policy to explore current challenges and innovative solutions in the nursing profession.

September 25th, 2025 @ Florida State College at Jacksonville - Jacksonville Downtown Campus, Room 140 (1:00 pm to 2:00 pm)

Driving the Future: The Rise of Autonomous Vehicles in Florida

Engage with the Institute for Strategic Policy Solutions for a forward-looking panel discussion on how Florida is preparing the workforce for the fast-emerging autonomous vehicle (AV) industry. As driverless technology transforms transportation, logistics, and public infrastructure, Florida's colleges are playing a vital role in equipping students with the skills and training needed to thrive in this rapidly changing field.

November Report for Fall 2025 ~
INSTITUTE FOR STRATEGIC POLICY SOLUTIONS

Programs

November 6th, 2025 @ SPC Seminole Campus - Digitormium (5:30 pm to 7:00 pm)
2025 Grand Debate

ISPS hosted its fourth annual Grand Debate at the St. Petersburg College Seminole Campus, bringing together students from across the Florida College System—including St. Petersburg College, Daytona State College, Eastern Florida State College, Palm Beach State College, and Hillsborough Community College. During the event orientation, students heard from Pinellas County Commissioner Kathleen Peters. The students then took the stage with Eastern Florida State College taking first place, St. Petersburg College earning second, and Daytona State College placing third. To conclude the event, students enjoyed a dolphin cruise around John's Pass on Friday.
